## ELISE 250 CUP

Since its launch, the Lotus Elise has been hailed as one of the best cars that money can buy. Creating perfect harmony between driver and machine. The Elise Cup 250 continues the car's legendary status as the fastest production Elise yet.

Having shed 21 kg and gained 26 hp, the Elise Cup 250 can accelerate from 0-60 mph in 3.9 seconds and deliver a top speed of 154 mph.

Powered by a higher-output version of the supercharged, 1.8-litre 4-cylinder engine, the Elise Cup 250 boasts 243 hp. Long seen as the benchmark for handling, the Lotus Elise Cup 250 is available for the first time as a roadster as standard, with a hard top available as an option.

The optional Carbon Aero Pack, which replaces the standard front splitter, rear wing, rear diffuser and side floor-extensions with lightweight carbon components is suitable for those wanting to boost performance; the pack cuts the car's weight by an extra 10 kg, reducing the mass to just 921 kg.

A truly lightweight, focussed and spirited British sports car; as only Lotus knows how.
